- Cancel/Return

- Checkout (Button)

- Guest Checkout (Button)

Clicking the Checkout button will allow the user to proceed with checkout. The Guest Checkout option will allow him to place the order without registration/login.

Section 6: Checkout

Once the user proceeds with the checkout, he will be redirected to the login page if not already logged in. The page will also have the option to checkout as

guest to avoid the process of registration.

Member Checkout

The member will have to login. After providing the credentials, the address will be required to enter. If the address is saved in the address member folder, that will be fetched automatically. The member will still be able to make changes to the address.

After verifying the address, the member will be shown the order summary before proceeding with the payment.

Note: If the address is not saved in the member's folder, then the address entered by the member will be automatically saved as default address for future purchases.

After verifying the order, the member will be redirected to the payment gateway.

After a successful payment, the member will be shown the invoice, which he can print or view later in the Order History section of the member folder. The order details will also be sent to the registered e-mail ID.

Wallet (Process of Checkout)

If Wallet will be selected, member will be redirected to the Pay from Wallet

section. Pay from Wallet

To use the Wallet amount s/he will select the option to use the "Wallet amount" at the time of CHECKOUT.

If Wallet amount is less than purchase amount, then buyer will need to pay only the balance amount after deduction from Wallet amount. And history will be displayed in the PAYMENT HISTORY section of the Wallet.

For example, if any buyer Wallet has INR 1000, he want to do the shopping of 500/- on website, at the time of shopping, he will choose the option to "make payment" through Wallet, and this amount will be deducted from their Wallet balance.

Guest Checkout

The visitor will be required to enter the e-mail ID and provide the shipping and billing addresses. The visitor will be shown the order summary before proceeding with making

the payment.

After confirmation of the order, the visitor will be redirected to the payment gateway for making the payment.

Note: The Payment Gateways will be provided by the client and integrated by Weblink India.

After a successful payment, the visitor will see the invoice. The visitor will have the option to print the invoice. An e-mail will also be sent to the buyer's e-mail ID containing the order details and the invoice.

Note:

On placing an order relevant Salon and buyer will be notified about the same through E-mail.
